

Gettysburg School District Sets \$269,605 Budget; Take Final Action At Next Meeting

A proposed budget calling for expenditures of \$269,605 was tentatively adopted by the executive committee of the Gettysburg joint school district at its regular meeting at the local high school Monday evening.

Final action on the budget will be taken when the entire joint school board will meet May 8 at the high school.

The \$269,605 figure is \$35,405.96 higher than the actual expenditures during the school year 1948-49, and \$12,513 higher than the 1949-1950 budget. While the budget is always fixed higher than the actual expenditures, much of the proposed increase will be necessary to pay mandatory increases in teachers' salaries and increased costs of teachers' retirement. Where the cost of teachers' salaries was actually \$191,911 in 1948-49, and budgeted at \$205,497 in 1949-50, the amount set aside for instruction costs next year is \$211,300.

Most Items Increased
Where fixed charges totaled \$2,257.58 in 1948-49 and were budgeted at \$7,200 in 1949-50, the 1950-1951 budget calls for \$11,250. \$11,100 is set aside for general control, an increase of \$1,100 over the previous year's budget. \$6,230 is listed for auxiliary agencies, an increase of about \$500 over the \$5,785 budgeted last year. Operation is \$20,225, an increase over last year's \$19,450 and maintenance is listed at \$9,500, an increase over last year's \$8,750.

Estimated receipts include: \$4,195 state appropriation toward vocational work, \$35,000 tuition, and the following sums placed in the joint treasury by the various school boards comprising the joint district, Cumberland township, \$47,095.80; Freedom township, \$14,285.42; Gettysburg, \$109,583; Highland township, \$9,884.59 and Strasburg township, \$49,561.19.

To Examine 6th Graders
Plans for an examination for all sixth graders were discussed, and Dr. Lloyd C. Keefe, supervising principal of the joint district, was authorized to make arrangements with the bus drivers, if it is possible, to bring the sixth grade youngsters from the county schools to Gettysburg for the all-day test.

Repairs to the furnace at Meade school were authorized including the placing of side lining at an estimated cost of \$233.95, replacing of the smoke pipe where needed and other repairs. The supply committee was authorized to secure bids on supplies for the coming year.

Various reports were received by the joint committee. Robert C. Diehl, treasurer of the activities fund of the high school, reported that the fund began March with a balance of \$6,886.18. Deposits during the month totaled \$3,771.81 and withdrawals, \$2,983.60, leaving a balance April 1 of \$7,374.39. Among the withdrawal items were:

ARENDSVILLE TO BE SITE FOR FILM FOR ULCA

Arendtsville will be the site for the next stewardship motion picture to be made by the United Lutheran Church of America.

Decision to use the upper county community as the location for the picture was made following a visit by John T. Coyle, vice president of Cathedral Films, Hollywood, Calif.; Henry Endress, New York city, stewardship secretary of the ULCA, and Harold U. Landis, Palmyra, treasurer of the Lutheran laymen's organization of the ULCA.

The three said that Arendtsville is ideally situated as the background for the movie, because of its scenic beauty, its churches, buildings and type of citizens.

To "Shoot" In July

Actual shooting of the motion picture will take place in July when actors and actresses, cameras and other equipment will be brought to Arendtsville from Hollywood. Some of the residents of Arendtsville will be asked to take parts as actors in the show.

Scenes will be taken in the Lutheran church at Arendtsville, in the Arendtsville bank, Arendtsville stores, in the interior of a number of homes of Arendtsville residents and possibly at Camp Nawakwa.

No title has been given to the picture yet, although the script has been written. It will be similar to the previous stewardship pictures such as "The Salt of the Earth," "And Now I See" and "Like a Mighty Army."

"Perfect" Setting

The Central Pennsylvania synod was chosen as the site for the picture because it is the second largest Lutheran synod in the United States. Several communities had been suggested as a possible site for the film. The Rev. George H. Berkheimer, former pastor at Arendtsville Lutheran church and now synod secretary, was asked his opinion.

When the script was described he told the officials in charge of the picture, "That describes Arendtsville perfectly." He then suggested that the three officials visit Arendtsville along with the other towns on their list. They visited Arendtsville and went no further, deciding that the community was "perfect" for the film's locale.

Bridges Given Five Year Term; U.S. Moves To Have Him Deported

San Francisco, April 11 (AP)—The Federal government moved today for immediate revocation of Harry Bridges' citizenship.

Such action, if successful, would open the way for a federal hearing to deport to Australia the CIO Longshoremen's boss, convicted of perjurying himself at his 1945 naturalization hearing by denying he ever was a Communist.

For that conviction, Bridges was sentenced yesterday to five years imprisonment. Two labor union aides were given two years for their testimony in his behalf at the citizenship hearing.

The government move to ask revocation of citizenship, scheduled for court hearing today (1 p. m. eastern standard time) was based on the contention that the revocation was mandatory under the statute governing Bridges' indictment.

FLYING SAUCER REPORTED HERE

The "flying saucer" has returned, and is now prowling these parts, according to the testimony of 11 persons who claim they saw one Monday morning at 10:45 o'clock in the Pigeon Hills.

Robert L. Jenkins, Spring Grove R. 1, state highway department foreman and his crew of eight were engaged in repairing a road when they heard a "whizzing" sound. They looked up and saw a black oval object flying at height of about 500 feet at what they described "a terrific rate of speed."

The workmen called to Charles Myers, Thomasville R. 1, a mason who was working on the construction of a house nearby. He saw the object, too. They called Elizabeth Heiner, Spring Grove R. 3, who lives nearby and she also saw the object.

They described the black saucer as trailing smoke and fire and said it appeared to be jet propelled.

The object, they said, appeared to be about 20 feet in diameter and had no wings or propeller. Because of the tremendous speed of the object it vanished in the distance in a few moments, the group said.

Miss Ruth Doud, director of the "Y," reported on the statistics of the organization, stating that 75 organizations had used the building for meetings during March, a total of 1,611 persons.

PIRATES CLAIM NEW BALK RULE SLOWS UP GAME

Atlanta, Ga., April 11 (AP)—The Pittsburgh Pirates pitchers are irritated by baseball's new balk rule and Manager Billy Meyer suggests umpires use stopwatches if they want to enforce it properly.

Meyer and his hurlers figure the rule is taking some of the action away from baseball. And the Buc leader predicts fans will be irked frequently when balks are called during the upcoming season.

This is the situation which not only has Pirate pitchers watching themselves but has caused much discussion in spring training.

The old rule concerning the pitcher coming to a "set position" with runners on the bases stated:

"Set position shall be indicated by the pitcher when he stands facing the batter with his entire foot on, or in front of, and in contact with, and not off the end of the pitcher's plate, holding the ball in both hands in front of his body and coming to a complete stop," etc.

In the 1950 rule book the new phrase now says "coming to a complete stop of at least one second."

Umps Inconsistent
Meyer says the umpires aren't consistent in calling that one-second stop, declaring:

"Some will pass the pitcher's delivery as long as he stops before delivering the ball, regardless of how long he stays there."

"Others are making the pitcher pause for at least a full second."

"I'd like to see them make the rule consistent."

In the Buc's first 27 exhibitions, 16 balks were called on Pirate pitchers and 20 on their opponents.

Murry Dickson and Elmer Riddle, two veteran National league hurlers on the Buc staff, are bothered most, Dickson has had five balks called in 25 innings and Riddle four in 12.

"It's like teaching an old dog new tricks," Dickson declared. "But maybe it will help in the long run. I have to concentrate on stopping where in the past I was thinking of the runner, the hitter, what and where I should pitch. Now I have to stop and count along with all the other things."

Meyer added that calling the rule make it "tough on the umpire, especially in close games," and he added:

"Sometimes the game will be tied in the ninth with runners on first and third with two out and the umpire will call a balk, sending in the winning run. The 30,000 fans who might be sitting in will go home with a sour taste."

"They paid their money to see action and there is no action in calling balks."

Charles-Beshore Fight Rescheduled

Buffalo, N. Y., April 11 (AP)—Ezzard Charles will defend his NBA heavyweight title against Freddie Beshore in June—if heart specialists say the champion is fit. The twice-postponed bout was rescheduled last night by the Fairview Athletic club.

But it will be up to the New York State Athletic Commission to decide, on the basis of doctors' reports, whether the club's third attempt to stage the fight in Memorial auditorium will be successful.

If the bout goes on, and if Charles wins, the champion will meet Lee Oma in an outdoor title bout in Civic stadium in July. Matchmaker Charley Pinto said.

No definite date was set for either fight.

Racing To Start At Williams Grove

Williams Grove, Pa., April 11 — Another veteran of the Indianapolis Classic and a Central Pennsylvania speed veteran who will join the ranks of "500" drivers on Memorial Day are among the latest to turn in entries for the AAA big car auto races on Sunday afternoon, April 16, which will open the 1950 racing season on the Williams Grove Speedway.

Baseball Briefs

Dodgers' Pitching Troubles

Asheville, N. C., April 11 (AP)—Pitching troubles continue to plague Manager Burt Shotton of the Dodgers. With Ralph Branca's sore elbow still bothering him, and Rex Barney returning to Vero Beach for further training, the Browns yesterday cut young Bob Milliken from the squad.

Milliken, who was in the Fort Worth, Texas league, roster, was promoted to Montreal in the International league. Shotton said he thought the youth was a comer, but needed seasoning.

Jack Banta, another ailing finger, yielded but one unearned run last night in teaming with Phil Haugstad for a 10-1 Dodger triumph over Macon.

Durocher To Use Hartung

Wichita, Kas., April 11 (AP)—Kirby Higbe, the old, Philadelphia, admits his pitching arm is a little sore—but still great.

"You know what Whitlow Wyatt used to say," Higbe observed. "Any time your arm isn't sore, it's dead. I think I'm going to have a big year for the Giants."

Manager Leo Durocher is going to toss Clint Hartung into a four or five inning hurling stint against the Cleveland Indians today. The big righthander has looked good to Manager Leo Durocher lately. The Giants whipped the Tribe, 15-8, yesterday, on a seven-run first inning.

Hank Wyse To Start

Charlotte, N. C., April 11 (AP)—Hank Wyse gets a second chance tonight against the Washington Senators.

Manager Connie Mack of the Philadelphia Athletics said he plans to start Wyse in the exhibition game despite the fact the ex-Chicago Cub yielded six runs on two base hits, a hit batsman, a wild pitch and a couple of errors in last Sunday's game at Orlando, Fla.

Phillies In Memphis

Memphis, Tenn., April 11 (AP)—The Philadelphia Phillies brought their slugging circus here from Little Rock, Ark., today for a game with the Memphis Cubs.

The Phils will be gunning for their sixth straight victory over minor league opposition. Yesterday they had little trouble at Little Rock in winning a 9-1 decision behind the three-hit pitching of Robin Roberts. Del Ennis led the attack with two singles and a home run with two mates on base, the round tripper coming in the sixth when Eddie Sawyer's men scored six runs. The game was called with the Phils at bat in the seventh, because of rain.

Chambers For Opener

Atlanta, Ga., April 11 (AP)—Cliff Chambers is expected to be on the mound for the Pittsburgh Pirates when they open their National league season against St. Louis a week from tonight.

The southpaw who won 13 and lost seven for the Buc last year has starred in spring training. Last night he allowed only three hits and one run in a six-inning chore against Atlanta of the Southern Association. The Pirates won 6-4, snapping a two-game losing streak.

The Pirates, in addition to their night game, went through a stiff afternoon workout. It was ordered by a much displeased Billy Meyer, the Buc manager who saw his team dubbed twice during the week-end by the American league's Boston Red Sox.

450,000 Pilgrims Blessed By Pope

Rome, April 11 (AP)—Catholics the world over were blessed on Sunday by Pope Pius XII at the climax of Easter services at the Vatican. Concluding solemn rites at St. Peter's Basilica, the 74-year-old pontiff raised his arms above 450,000 Holy Year pilgrims gathered in the church square and said:

"Peace cannot come to society unless it inspires and guides the heart of each individual. . . . The harmony of order can arise only when hatreds are spent and passions calmed, when riches are distributed according to a more equitable criterion of justice and charity."

Previously inside the basilica another 50,000 pilgrims had heard the

cide, on the basis of doctors' reports, whether the club's third attempt to stage the fight in Memorial auditorium will be successful.

If the bout goes on, and if Charles wins, the champion will meet Lee Oma in an outdoor title bout in Civic stadium in July. Matchmaker Charley Pinto said.

No definite date was set for either fight.

THREATENS TO OPEN SUIT IN SALARY DISPUTE

Scranton, Pa., April 11 (AP)—Al Widmar wants \$10,000 from the St. Louis Browns to pitch baseball in 1950.

If he doesn't get it, the 25-year-old righthander said at his home in nearby Dunmore yesterday, "I'll sue baseball in the courts the way Danny Gardella did."

Gardella brought a \$300,000 damage suit against organized baseball after he was banned from playing in this country for jumping to the Mexican league.

Widmar said the Browns are "preventing me from earning a decent living in baseball." The big pitcher quit the Browns recently and came to his Dunmore home to sit out his bid for a higher salary.

He contends he was paid \$8,000 last year with Baltimore of the International league, where he won 22 games.

The Browns, bidding for his services, first offered him the major league minimum of \$5,000, Widmar declared. Further offers weren't much better, he added, with the highest offer being \$7,000.

In San Antonio, Tex., William O. Dewitt, president of the Browns, said, "If Widmar is going to court, it becomes a battle with baseball rather than with the Browns." He declined further discussion of the case.

Dewitt said he had written Commissioner A. B. Chandler, but never received an answer to his "request for help." Chandler was not available for comment but his assistant, Walter Mulbry, said the commissioner had not received any request from Widmar to be placed on the voluntary retired list.

Sports Roundup

By HUGH FULLERTON, JR.

Athens, Ga., April 11 (AP)—The University of Georgia has finished spring football practice, but some of the boys were out "on their own" yesterday. And in a downtown restaurant Coach Wally Butts was explaining the situation in a way that resembled a country-boy version of his pal Frank Leahy's famous weeping act.

"I'd like to know how some of these coaches get the boys out 10 or 12 weeks," drawled Wally. "I couldn't persuade them to do it." And do you know what Bobby Dodd (he's the Georgia Tech coach) said? He said, 'With those cool strikes in Pennsylvania and Ohio my boys were too busy reading the labor news to pay any attention to football.'"

IT'S A ROUGH BUSINESS

Expounding on his team's prospects, Butts insists the schedule is too tough for the squad. But after the crying towel is sopped, Wally admits his team may do fairly well if Mal Cook, a six-foot-four quarterback who looks more like a tackle, lives up to expectations.

DOING A SLOW AUBURN

Best chuckle around the Georgia campus comes from a baseball game against Auburn the other day. The visitors were leading 3-0 with two out and two on base in the ninth. The next batsman hit a fly. The Auburn center fielder grabbed it and tried to put the ball in his hip pocket in the same motion. Instead he dropped the ball and two runs scored. A few minutes later the first baseman, making an equally fancy gesture, stretched out to take a throw and let the ball glance off the tip of his glove. . . . Another run came in and Georgia won in the tenth.

Bucky Harris (in a New Orleans newspaper): "Enos Slaughter should be held up to every American boy as an ideal. His name should be in school textbooks along with this country's heroes. . . . He never quit. He never will. He is the greatest competitor ever to put on a big league uniform."

Harrisburg, April 11 (AP)—Gov. James H. Duff flatly denied Monday an appointment to the state supreme court is being held up so it would be available for John S. Fine—should Fine be defeated for the Republican nomination for governor. Duff was asked at a press conference to comment on a question to that effect directed to Fine last night by Jay Cooke, who also seeks the GOP gubernatorial nomination.

Says Russians Are Training Chinese Reds

Taipei, Formosa, April 11 (AP)—Chinese Nationalists Monday predicted Russian experts would call the signals on the next invasion of Hainan island.

Dispatches from Hainan said Russian advisers had arrived on Luichow peninsula, 10 miles from Hainan on the Chinese mainland, some weeks ago. The Russians are drilling intensively a small invasion force, the dispatches added.

Nationalists shattered three Chinese Communist attempts to invade the island in the past two weeks. They said they killed 11,000 Reds, captured at least 2,000 and seized considerable arms and supplies.

Reports reaching Hongkong from Red China said: The Communists have ordered one of their top generals, Lin Piao, to conquer Hainan. A full-scale invasion may come within a few days.)

Gypsy Dance Erupts Into Free-For-All

Philadelphia, April 11 (AP)—A Gypsy Easter dance erupted into a free-for-all on said Broad street, messing up traffic for a half hour and bringing eight police cars into action.

Police Sgt. John McLaughlin said some 600 gypsies streamed out of a building where they were holding a holiday jubilee and soon got out of hand. He called for help—a lot of it—when dancers started slugging one another with wrenches, hammers and short pieces of pipes. McLaughlin said he did not know what started the fighting, nor how so many weapons had been found so quickly.

Many of the gypsies, police said, were from other cities—New York and Reading, Pa., among them. Four gypsies, one of them a woman, were arrested on charges of disorderly conduct, resisting arrest and inciting to riot.

Say New Drug Is Growth Stimulant

Philadelphia, April 11 (AP)—One of the wonder drugs developed to fight disease—golden aureomycin—has been found to be a powerful growth stimulant which may help even stunted children.

The drug's newly discovered powers were the subject of one of the more than 300 scientific reports submitted to the second session of the American Chemical society's 117th national meeting, which began Monday. The first session was in Houston, Texas, last month. The final session opens at Detroit April 16.

The report came from Dr. E. L. R. Stokstad and Dr. James Jukes, of the Lederle Laboratories division, American Cyanamid company, of Pearl River, N. Y.

Up to now, aureomycin, like its sister "fungus drugs" penicillin and streptomycin, has been used as a potent weapon against pneumonia, whooping cough, Rocky Mountain spotted fever, undulant fever, and streptococcus and staphylococcus infections.

Syracuse, N. Y., April 11 (AP)—Twenty eggs rolled out when Mrs. William Mahyna cut open the chicken she was preparing for Easter dinner.

"Players can be bought," he said. "But only the kind that help you finish in the second division. Why, they start at \$25,000 for a third string catcher. You can't buy a top pitcher and an outfielder for less than \$500,000. Major league clubs will just have to rely on their farm teams."

Carpenter is not certain himself where the 1950 Phillies will finish. He picks Brooklyn to win the pennant and believes you can put Philadelphia, St. Louis, Boston and New York in a hat and maybe come up with the next four teams in exact order.

To Use Jawbreaker On Stomach Ulcers

Philadelphia, April 11 (AP)—A chemical compound with a jaw-breaker name was reported today to have opened up a new approach to the treatment of stomach ulcers.

The drug, which can be taken by mouth and makes a double-barreled attack on ulcers, still is in the experimental stage. John W. Cusick and Richard A. Robinson said in a paper prepared for delivery before the American Chemical society meeting here. The two researchers represent the firm of G. D. Searle and company, Chicago.

The drug has not been named, but is chemically identified as: beta-diethylaminoethyl-kanthene-9-carboxylate methiodide. It is being released to the medical profession only for use in carefully controlled clinical tests. The compound also is expected to prove effective in curbing gastro-intestinal spasms, the paper stated.

While most persons are highly susceptible to poison ivy, others seem to be completely immune.

Plane Sights Sub Off Golden Gate

San Francisco, April 11 (AP)—The crew of a military air transport service plane yesterday reported sighting a surfaced submarine 57 miles west of the Golden Gate—swelling the reports of subs off the California coast to more than a score in the past few weeks.

First sighting of the craft was made at 9:30 a. m. by Air Force Lieutenant Colonel Herman Rumsey, 32, pilot of the plane, west of the Farallon Islands.

Vice-Admiral George D. Murray, commander of the western sea frontier, said no United States submarines were operating in that area. Two planes which checked Rumsey's report saw only whales.

The admiral also announced three other sightings yesterday. Each was investigated with negative results.

Richards said the proposed academy would train officers for the Air Force in four-year courses similar to those at the Army's West Point, and the Navy's Annapolis.

Local Miscellany: Schmucker Duncan has leased the Gettysburg Roller Mills and has purchased the stock of John M. Thomas.

The Gettysburg Circle of Ladies of the Grand Army of the Republic will hold a reception for members of Corporal Skelly Post and their wives, on Tuesday evening, April 17th. The widows of Comrades of Skelly Post are also cordially invited to be present.

C. B. Walters, a book agent, was arrested in Harrisburg last Thursday, by Chief of Police Wilson, of this place, on a warrant sworn out by Robert Gilmore, proprietor of the Hotel Gettysburg, charging him with non-payment of board. He was taken before Alderman I. G. Hess, who held him for court, under \$300 bail. Wild geese were noticed flying northward last week.

A Sunday Morning Fire: The wooden top of one of the kilns at the Pfeiffer brick works was destroyed by fire last Sunday morning, entailing a loss of \$300. The kiln had been finished about 12 o'clock the night before and had been left in what was supposed to be good condition. Flames burst out of the top about 10 o'clock and the boards being very dry, it was soon consumed. The fire department was not called out. Workmen in the neighborhood protected the other buildings with buckets of water. The kiln was not insured.

Loyal Temperance Legion Contest: One of the best oratorical contests ever given by the Loyal Temperance Legion of this place was held in the auditorium of the Meade School building last Thursday evening. The contest was for a silver medal offered by the Young Women's Christian Temperance Union for the best oration on some temperance subject. Roy Dougherty, of the Senior L. T. L., presided.

Montfort Melchior, whose subject was "Riprah Mourning for Her Sons," won the prize. The other contestants were Miss Lillie Dougherty, Miss Louise Stahlie and Mark Eckert.

The judges were Rev. D. W. Woods, Jr., Rev. Dr. James W. Richard and Dr. George D. Stahlie. A pleasant feature of the evening was the musical part of the program. Misses Carrie Tawney, Magdelene Keith and Louise Stahlie rendered several instrumental solos and the Sophomore Glee Club of the college sang several selections. Miss Cornelia Walter sang two solos to the delight of the audience.

Today's Talk

By GEORGE MATTHEW ADAMS
THE LOVED AND GONE

No matter at what period of life we may have arrived, there are those whom we have loved, who depart from us. This is, of course, more evident when arriving at middle life, and beyond, for we have then enlarged our circle.

We ourselves die a little at the departure of those beloved. I was reading a most interesting and inspiring book, called "As I Remember Him," by Hans Zinner, recently and quote this sentence from it: "At times the dead are closer to us than the living, and the wisdom and affection of the past stretch blessing hands over our lives, projecting a guardian care out of the shadows and helping us over hard places. For there are certain kinds of love that few but the very wise fully understand until they have become memories."

How very true this statement is. We know how many there are who have had to die to be appreciated. But we also know that those, whom we have loved and lost, grow more precious to us with each passing day. Often we reach out to touch their vanished hands, or pause to catch a word of love and understanding, enshrouded in memory.

All of us, I am sure, experience this "guardian care out of the shadows" spread over us by the absent ones long gone. A remembered smile, many a word of encouragement, and admonishment of faith in the Father of us all, and endless words of wise counsel—these come to us, as though but a happening of yesterday. I do believe we are influenced and inspired all our lives by those who have gone from us, but whose spirit remains as deathless.

To those who are spiritually mature, I believe that sorrow comes only for the purpose of chastening, and for the purification of the heart. It's the weeping that endureth but for the night, with joy coming in the morning. Ah, how surely, of those whom we have loved and gone, can we say that "their works do follow them."

Tomorrow Mr. Adams will talk on the subject: "To Please The Eye."

HUMBLE MINISTER

He was a humble minister
Who went from door to door,
And night or day would kneel
To pray
Upon the barest floor.

The plight of poor folk he could sense.

He understood their needs:
And what he lacked of eloquence
Made up with gracious deeds.

"As servant of the Lord," he'd say,
"My time is not my own
And at His business I must stay
So long as need is known."

"And since God's children all are we,
No call can be delayed.
I know the Lord is trusting me
To comfort and to aid."

His body sleeps; his soul lives on
By all the poor adored.
A humble minister, but one
Who chose to serve the Lord.

BITTER BATTLE ON HOOVER PLAN FOR VETS' CARE

(Editor's Note: This is the first of five stories explaining the fight over the Hoover Commission's proposal to lump the VA hospital program in with other government hospital programs.)

By JAMES MARLOW
Washington, April 11 (AP)—There's a bitter, burning fight over this question:

Should the Veterans Administration (VA) continue to run its own medical and hospital program for war veterans?

Or, would it be better and cheaper to merge the VA's medical program with other government medical programs in one big, new agency?

The arguments over this have been spread out widely. This is an attempt to pull the pieces together. But keep this in mind:

Anything involving veterans is touchy business for politicians. This is an election year for Congress. So don't expect Congress to make a decision this year.

VA Created In 1930
In 1929 President Herbert Hoover recommended to Congress—in the interest of efficiency and economy—the various jobs the government was doing for veterans should be brought together in one agency.

Congress acted on this in 1930 created the VA. (An attempt in this direction had been made in 1921 when Congress set up the Veterans Bureau to take over some veteran activities.)

So since 1929 the VA has been handling not only insurance and pension problems of the veterans but also has been running its own hospitals and medical care for veterans.

300 Recommendations
But, since 1929, the VA and the government have grown to enormous size. And in July, 1947, Congress established a "commission on organization of the Executive branch of the government."

Its purpose? To make a thorough study and recommend ways for running the Executive branch—the departments and agencies—better and cheaper.

This commission, made up of six distinguished Democrats and six distinguished Republicans, was headed by former President Hoover. It has been known as the Hoover Commission.

This commission called upon more than 300 experts in various fields to dig into the government and advise the commission. By the middle of 1949 the commission, finishing its work, had made about 300 recommendations.

Congress already has acted upon some of those recommendations, is considering others. Among them is this Hoover Commission suggestion:

Battle Lines Drawn
That the hospital program of the VA, Army, Navy and Air Force and the Public Health Service all be combined in a brand new agency to be called the United Medical Administration. It was the proposal to take the veterans' hospital program from VA that brought an uproar. Battle lines formed at once.

Opposing the idea are four big veterans' organizations claiming 5,000,000 members: The American Legion; The Veterans of Foreign Wars; The Disabled American Veterans; and the Amvets, the American Veterans of World War II.

For the idea are: The U. S. Chamber of Commerce; the U. S. Junior Chamber of Commerce; the American Veterans Committee which claims a membership of about 25,000 veterans; and the Citizens Committee for Reorganization of the Executive Branch of the Government (called also the Citizens Committee for the Hoover Report).

When the Hoover Commission finished its work, the Citizens Committee was organized nationwide to see that the commission's recommendations were acted upon and not forgotten.

OFFERS PLAN ON 3RD U.S. ACADEMY

Erie, Pa., April 11 (AP)—A national academy to train political leaders has been proposed by the head of the American Legion. National Commander George N. Craig said a bill calling for such an academy soon will be introduced in Congress.

Craig told a meeting of the 29th Legion district last night: "American people require that admirals, generals, doctors and lawyers be highly trained, yet we send society bridge players to the international poker games."

The Legion head said appointees to the academy would be taken from universal military training candidates or would be selected on the same basis as U. S. military and naval academy appointees. Craig suggested that investigations of Communism be conducted on a high plane.

The American people, he declared, are entitled to know if there are Communists in the government, but "never should international investigations take on the spirit of a carnival." He added: "Files of Communist investigations should be thrown open to the public and not be used as a political football."

He did not rehearse testimony already given in the case. Instead, he said, the hearing will go on as planned before Nagle became ill.

You Must Have A License

Los Angeles, April 11 (AP)—Two Samsons-in-reverse are in jail here today for cutting off their wives' hair.

Edward Lee Bruce, 26, a drapery-hanger, is held on suspicion of felonious assault on the complaint of his wife, Rosalie, 22. Her two-foot tresses were trimmed to a stubble with scissors and a razor-comb.

Bruce said he did the barbering job to "keep other guys from making a play for my wife." She countered that he is extremely jealous.

Alexander Sanchez Moya, 31-year old sheet metal worker, was arrested last night on a felony-wife beating warrant which said he scissored off the hair of his wife, Florence, 31.

Police pointed out that both men lacked barber licenses.

Secretary Reports
"I believe it would be of great benefit to Gettysburg if we had more industries," Mr. Musser said. "In the event of a recession or depression, the tourist business would be the first to suffer, and diversified industry would be a big help in stabilizing conditions here."

Mrs. Helen Snyder, secretary of the Chamber, reported 86 members, 14 of whom are new members. The secretary sent out 6,000 folders during March and answered approximately 300 inquiries. Reports were given by the retail committee relative to store closing hours, but no action taken. A report was also given of progress toward the building of the proposed Memorial highway between Gettysburg and Washington, including a meeting with the Frederick Chamber of Commerce and another meeting with Congressman James F. Lind. The local Chamber plans to be host to Frederick Chamber members in Gettysburg April 26, Mr. Garvin said.

The directors authorized the purchase of a new typewriter for the use of the secretary.

Johnson To Review Hospital Decision

Washington, April 11 (AP)—Secretary of Defense Johnson has agreed to review the decision to close five military hospitals and curtail others.

Among the hospitals scheduled for closing under the original order is Valley Forge General hospital at Phoenixville, Pa.

Chairman Rivers (D-S. C.) of the House Armed Services Subcommittee disclosed yesterday Secretary Johnson's decision to review the order. The subcommittee has just completed an 8,000-mile trip of inspection of armed services hospitals.

Rivers said Secretary Johnson agreed during a 90-minute conference that defense, military and civilian officials will look into the committee's report of the investigation.

Counted To Ten And Fired Fatal Shots

Finleyville, Pa., April 11 (AP)—A coal operator, who grimly counted to ten and then fired two pistol shots, was blamed today for the killing of a cafe proprietor.

State Policeman Jerome McCavitt said the man was Calvin Miller, 26, Finleyville R. D. 1, who later sent a fatal bullet crashing into his own brain. The victim was James Gilbert, 46, Pittsburgh.

The police officer told this story: Miller entered the tavern last night, brandishing a pistol. He forced a dozen patrons to line up against a wall. He threatened to kill Gilbert for causing him to lose a coal contract.

When Gilbert denied the charge

and said he did not know who was responsible for Miller's business loss, Miller said: "I'm going to count ten. If you don't tell me by then, I'll shoot."

McCavitt said Miller counted to ten and fired twice. Gilbert died instantly. Miller had to fire twice to end his own life. The first shot only creased his forehead.

PHILADELPHIA'S 'MET' IS BURNED

Philadelphia, April 11 (AP)—A fire early today burned out a part of the interior of the Met, one-time opera house now used as a dance hall and boxing arena a dozen blocks north of city hall.

The blaze was discovered about 5:30 a. m., and four alarms were sounded within 30 minutes. Firemen said the flames were under control at 7:30 a. m. when more than two dozen pieces of fire apparatus and scores of firemen were on the scene.

Jimmy Toppi, general manager of Toppi Promotions, Inc., which operates the Met, said a hatchet girl smelled smoke during a dance last night and another employee found a burning cigarette lodged between boards in the floor.

Toppi said he had an attendant extinguish the cigarette with a bucket of water, and had personally checked the section before leaving several hours later. However the fire this morning apparently started in the same vicinity, Toppi said. He said he was not able to estimate damage immediately.

The blaze brought a heavy concentration of fire-fighting equipment to the area, and forced police to set up emergency detours for thousands of autos and buses bringing workers into the center-city district from northern sections of the city and suburbs. The Met is at Broad and Poplar streets.

On March 5, 1948, a fire of unknown origin caused about \$153,000 damage to the same building.

28 FIELD FIRES

Norristown, Pa., April 11 (AP)—Twenty-eight fires in eight hours kept 18 volunteer fire companies on the run in eastern Montgomery county yesterday. The fires were in an area extending from Philadelphia city line to Hatboro and from Abington to Springfield townships and included sections of Jenkintown, Willow Grove, Ambler and Upper Dublin.

BLOOD POVERTY IS MENACE TO GOOD HEALTH!

Certa-Vin Enriches Your Blood
With Iron: Builds Stronger
Nerves With Vitamin B: Re-
lieves Gassy Stomach: Try
This New Formula for Only a
Few Cents a Day. Get It At
Peoples Drug Store.

Today many modern people have "Starved Blood" because the food they eat only HALF nourishes their blood-stream. Often this is due to gassy stomach and poor digestion, so these people feel weak and look pale.

BLOOD POVERTY

Some victims scarcely know what is wrong with them. They feel like they are tied to a log everytime they try to do something. Their blood cells are shrunken or faded-out. This is BLOOD STARVATION. Such persons wonder why tonics fail them—why they have to be half-sick and half-well—why they can't have their full share of energy.

NEW HEMATONIC Works With Your Food

Such discouraged people will now find—in CERTA-VIN—two liquid elements that regenerate Red Blood Cells. This is a new formula, known as a Hematonic. It is taken before meals and works with your food. Thus your food digests faster and better, with less gas and bloating, so you get the fullest good out of your meals. Soon your watery blood is enriched with Iron and your nerves are energized with Vitamin B. Your red blood count goes up, and you feel better all over.

FEW CENTS A DAY

Benefit comes quickly, usually within three or four days. And the price of CERTA-VIN is reasonable. You can actually take this new medicine for a Few Cents a Day! So if you are a victim of blood poverty, gassy stomach, or lack vitality, don't go on suffering. Get CERTA-VIN at PEOPLES Drug Store, 25 Baltimore Street, Gettysburg.

U.S. "Daydreaming" Dr. Nourse Asserts

Philadelphia, April 11 (AP)—The United States is "indulging in an Indian summer daydream" while a business storm is brewing, says Dr. Edwin G. Nourse, first chairman of the council of economic advisers to the president.

Each segment of the economy, Dr. Nourse added, must put the country's welfare "above short-run gains for their particular constituents" if we are to avoid a depression. He spoke before a panel discussion arranged by the American Society of Tool Engineers.

Another speaker, Robert B. Douglas, president of the American Society of Tool Engineers, said Russia may bridge the gap between her industrial production and ours by using atomic energy.

He said useful application of atomic energy in this nation is 10 to 15 years away "if we continue to restrict knowledge in the fashion we are doing today." He said he "would doubt that it would take that long if industry were given a chance."

Justice Maxey Died Without A Will

Scranton, Pa., April 11 (AP)—One of Pennsylvania's foremost lawyers, Chief Justice George W. Maxey of the state Supreme court, died without leaving a will.

This was disclosed here yesterday in a petition filed by the widow for letters of administration in the estate, which she estimated at \$20,000 in personal property.

Justice Maxey died of a heart attack in Pittsburgh March 20, a few moments after opening a session of the state's highest court. He had two years to serve of a 21-year elective term.

FINE PROMISES GAMBLING DRIVE

Harrisburg, April 11 (AP)—A promise to crack down on gambling "wherever in Pennsylvania it rears its head" was made by John S. Fine, as the former Superior court judge opened his campaign for Republican nomination for Governor.

In a hometown rally at Nanticoke, the GOP aspirant said that if elected Governor he will expand the state police force to whatever extent necessary to cope with gambling and other problems.

Fine is opposing Jay Cooke, Philadelphia, in the primary election May 16. Gov. James H. Duff, Fine's running-mate on the Duff-Fine ticket, as candidate for GOP nomination for U. S. Senator, is pitted against Congressman John C. Kunkel, Harrisburg.

Fine's speech was an answer to a Kunkel charge that he is a "political judge, who has been the boss of Luzerne county, which has the most corrupt political machine to be found in Pennsylvania."

The former judge denied "with all the power at my command that

my hands have ever been touched with tainted money. Neither has any been slipped into my pocket nor into the past nor present county political campaign treasuries. I deny any connection with gambling. That gambling did exist is not to be denied," said Fine. "But if Mr. Kunkel had taken the trouble to find out he would have known that a year ago—long before any slate for state officers was selected—Col. Wilhelm (state police commissioner) was asked verbally and by letter to have the state police come into Luzerne county to clean up the gambling situation. They came in and many convictions resulted."

Fine said he was dedicating himself to "fight for the betterment of the little fellow—the average man and woman," for in his youth

LESS HOPE NOW FOR PRICE CUTS

Washington, April 11 (AP)—Americans appear somewhat bothered by economic prospects but nevertheless cent on boom-level buying—something that should help business stay good.

The Federal Reserve board supplied this estimate. Furthermore, it said people have less hope of general price cuts this year than last, although more than half figure that prices of cars and major household

items will come down.

A board survey of consumers buying plans pointed to continued record sales of homes and autos this year, more than doubled sales of television sets, and a strong market for furniture, refrigerators, etc.

As to housing, it found more than a million persons "definitely" plan

to buy new homes this year, but a growing number are determined to pay less than \$10,000. About as many more intend to buy in 1951.

Since this referred to prospective buyers of new rather than used cars, it suggested that the auto industry's best sellers are likely to be the less costly models.

PREMIERS OF INDIA, PAKISTAN ACHIEVE PACT

By DeWitt Mackenzie
(AP Foreign Affairs Analyst)

The prime ministers of the new neighboring nations of India and Pakistan have signed a pact which they solemnly agree has pulled their countries back from the verge of war.

After seven days of difficult discussions in New Delhi, Premier Nehru of India and Premier Liaquat Ali Khan of Pakistan achieved an agreement which may carry them far toward peace. It is approved by both parliaments and is implemented. The Indian parliament already has ratified it.

This agreement apparently didn't attempt to deal with all the trouble-making issues between the two great states. It was centered in the minor problems which have been producing so much bloodshed and de-

struction of property in both countries.

Stem From Religious Conflicts
These problems of course stem from the fierce religious conflicts which have been waged between the Hindus and the Moslems from time immemorial. This strife was given fresh impetus by the separation of the great Indian peninsula into the two distinct nations.

The division was based on the complexion of the populations in the various areas. That is to say, the Hindu territories were grouped together and the same was done with the Moslems, so far as possible. However, this resulted in a bad division of Pakistan—part of the nation being in Bengal and Assam on the eastern side of the peninsula while the major portion is in the northwest.

Naturally it was impossible to make a clean-cut division of populations and as a result many minority groups were left in both areas—Moslems in India and Hindus in Pakistan. Moreover, these groups were scattered, for not all the Hindus in Pakistan were gathered into one community, and the same was true of Moslems in India.

The result of this division has

been much communal strife in which minority groups have suffered terribly both in loss of life and in destruction of property. Furthermore, minority groups seeking to leave an area and join their own kind in the other state, have in many instances encountered insurmountable obstacles.

The passage of time has deepened this situation, and it was mainly to deal with the minority issue that the two prime ministers got together. What they have achieved in the way of agreement is remarkable.

The pact guarantees the security of the Hindu minority in Moslem Pakistan, and the Moslem minority in Hindu India. Both minorities are to be accorded unhindered migration across the borders of the two dominions.

Heavy punishment is provided for those provoking disorder. Both governments also are to step heavily on any propaganda which might arouse communal hatred.

Wife Who Shot Rival Given Eight Months

Pittsburgh, April 11 (AP)—A pale, sobbing woman who pleaded guilty to shooting the rival for her husband's love began an eight to 16-month sentence today for manslaughter. Because Mrs. Nola Simmons, 45, already has served five months in jail, she will be eligible for parole in another three months.

Judge J. Frank Graff set the degree of guilt at manslaughter after Mrs. Simmons told how she shot Mrs. Helen Benke, 34, last November 13, because "I couldn't stand it any longer."

Mrs. Simmons testified her husband's 18-month affair with Mrs. Benke had plagued her and made her try suicide twice the day of the shooting. Roy Simmons, 54, former house owner, testified earlier that "a lot of the trouble might have been my fault."

The maximum penalty for manslaughter is six to 12 years. Mrs. Simmons pleaded guilty.

Pa. Court Reviews

Philadelphia, April 11 (AP)—The

state Supreme court today had under consideration an appeal in the death sentence imposed on James M. Johnson in connection with the fatal wreck of a Reading Company train near Valley Forge nearly two years ago.

The appeal was heard yesterday by the high court, which reserved decision.

Johnson, 48-year-old Hinerant railroad laborer, was convicted of first degree murder in Montgomery county court. The Commonwealth charged that he caused the wreck, intending to rob the victims. Two trainmen, Bub I. Demmy and Howard R. Jackson, were killed May 2, 1949 as their engine overtook.

Attorneys H. Lester Haws and Robert W. Hesterman told the Supreme court that Johnson was unlawfully taken into custody, that he was not informed of the precise criminal charge against him, and was not advised of his constitutional rights.

Harrisburg, April 11 (AP)—The McConehills borough municipal authority was authorized today by the Public Utility commission to purchase the McConehills Water company at a cost of \$69,478. The utility serves some 440 customers in McConehills and adjacent areas of Fulton county.

Johnstown Faces Transport Strike

Johnstown, Pa., April 11 (AP)—This bustling industrial and mining center today faced its first general transportation strike since 1943.

The 302 employees of the Johnstown Traction company last night voted to strike to back up demands for a 25-cent an hour wage boost and other benefits.

A strike would cut off all trolley and bus service to 150,000 residents of the Johnstown area. The strike call is effective when sanctioned by the International office of the AFL.

The strike action followed union rejection of a four cent an hour wage increase offer from the company. The present base pay is \$1.30 an hour.

OUR 93rd ANNIVERSARY MESSAGE—

"that government of the people, by the people,
for the people, shall not perish from the earth."

Abraham Lincoln

We speak to you today from hallowed ground. The life of a great nation was saved here on the blood-stained fields of Gettysburg. Immortal words were spoken here, which echoed around the world and gave wings to freedom hopes in the hearts of men everywhere. The eternal flame was lighted here and the sacred vessel was given to us of Gettysburg to guard.

The American Way Of Life Is Under Attack

Today, the world is a battleground of conflicting philosophies. Mankind is caught in the agony of a universal Gettysburg. Whether from this struggle greater good shall come, as it did for us, no man can say.

Enemies of the American free enterprise system say that the old ideals and the sober virtues which made America great no longer have truth and meaning today. They tell us that wealth may now be shared without being earned; that something may be had for nothing. The hog need no longer root or die; it may rest at ease in its wallow. In the vineyard, the loiterer is entitled to as much as the laborer.

These exponents of the "take-it-easy" life say that the United States, which gave the world the airplane and set up new all-time speed records for production, now needs for its future progress no faster vehicle than a rocking chair.

They Would Take The Sky Away From Us

Not content with attacking our free institutions, they scoff at religion. If we are to believe them, there is no Power that answers prayers, no Hand that dispenses justice with mercy. Man has only the earth left to grovel on, or to grub in; the sky has been taken away from us.

This Is A Time To Stand Up And Be Counted

This is a time for "taking sides." The call has come for each one of us to stand up and be counted. So far as The First National Bank of Gettysburg is concerned, we rise up in our place on Lincoln Square, where we have lived and worked and served for nearly a century, and we say "NO!" to all this nonsense.

Voices from the hallowed fields of Gettysburg join with ours in crying out against this folly.

We summon as witnesses to these great truths the friends and neighbors who have banked with us for years — commercial firms, business and professional men of Adams County; storekeepers, farmers, home owners, plain citizens, who have practiced the time-honored virtues and thrived; who have followed the old paths and found them good.

How Our Banks Have Helped To Turn The American Dream Into Reality

The people of the United States, under the benefits of democracy and the free enterprise system, have created more wealth and enjoyed more liberty and more opportunities than have any people in history.

This vast expansion was largely made possible by the co-operation of the independent community banks of the nation. From them came the faith, the initiative, the cash and the credit which helped to convert dreams into reality. Our banks today stand for a sound economic order. They stand for old-fashioned thrift and industry. They affirm that "upside-down" thinking will result inevitably in a chaotic, topsy-turvy world.

We State Our Creed:

Faith in God; Feet on the Ground

America does not need these new philosophies which have been concocted out of cloud stuff and moonbeams. We need only to keep our feet on the ground, to keep our spirit strong and our faith and courage high, to go on from where we are to heights that men have never reached before.
